

CITY OF
FOLSOM
DISTINCTIVE BY NATURE

To Whom It May Concern:

Segway Polo was formerly introduced to the Folsom community in 2010 and trialed on our synthetic turf field. The trials and demonstrations went very well, and to date we have had no issues.

In 2011, the City of Folsom was fortunate to host twelve teams from around the world for the sixth annual Segway Polo Woz Cup Challenge Cup, which was hosted by the International Segway Polo Association (ISPA). The games were held at Prairie City Stadium located at Folsom High School, which is also a synthetic turf field. The event was a success and a good time was held by all. There were no issues with the Segways being operated on the synthetic turf field.

Today, we continue to welcome the use of Segways for Segway Polo practices and games within the Folsom Parks and Recreation system.

Please feel free to contact me directly if you have any questions.

Sincerely,

Lynn LePage
